

Scholar-in-Residence

Mussar Shabbaton Weekend with Alan Morinis

Mussar is a 1,000-year-old Jewish spiritual practice focused on cultivating personal character and ethical behavior through the study of middot (soul traits) like patience, gratitude, and humility. It offers practical tools for mindfulness and self-transformation, helping individuals align daily actions with their inner, divine essence to live a more meaningful life.

Alan Morinis, founder of The Mussar Institute, received his doctorate from Oxford University. He is one of the leading lights in the revival of the Jewish spiritual tradition of Mussar and is the author of four books.

We are *grateful* to our Weekend Sponsors
